The sections of a user manual often include: A cover page A title page and copyright page A preface, containing details of related documents and information on how to navigate the user guide A contents page A Purpose section. This should be an overview rather than detail the objective of the ...

User guide—Wikipedia

A user manual is a formal writing piece with a specific structure, and should be written by someone who is intimately familiar with the product such as a technical writer or the product designer. Writing an effective user manual requires knowing who is going to be using the product, then writing it with these users in mind.

Manual very powerful AND very easy to use Apr 1, 2019 It's rare that I find an application that is both very powerful AND very easy to use. Manula is just such a solution. The user interface and overall design of the system make it easy for us to create fully-customized and branded user documentation.
