2nd Edition

One application of
multilevel modeling is
the analysis of
repeated measures
data. Multilevel
modeling for repeated
measures data is most
often discussed in the
context of modeling
change over time;

Download

Ebook A

however, it may also be used for repeated measures data in which time is not a factor. In multilevel modeling, an overall change function is fitted to the whole sample and, just as in multilevel modeling for clustered data, the slope and intercept may be allowed to vary. For example, in
