Pick a letter on the outer wheel and a number in the inner circle – this is your key (ex. M21). Turn the inner wheel so that the number (21 in our example) lines up with the out wheel letter (M in our example). On our wheel 21 also corresponds with R in the shaded section. Don't move the wheels now, keep them in place.

Blank Cipher Disk Template - schoolleavers.mazars.co.uk

Take one piece of cardboard and a divider. Spread the divider to his maximum radius and draw a circle. The circle of around 20 cm will be good for our larger circle, but you can make it even bigger for a bigger cipher wheel. Take the second piece of cardboard and a divider and draw one smaller circle.

The "computer" draws the design on their blank grid based on the instructions given by the programmer. The computer CAN ONLY say "repeat the last instruction," "wait," and "ready for the next instruction." Once the "programmer" has given all instructions and the "computer" has completed drawing, compare the two designs.
