Buying computers for seniors can be a tricky task because as we know, vision and dexterity are some of the issues that we have to deal with, as we get older. Even older adults enjoy social networks just like everyone else and no one should deny them the chance to connect and get informed about different issues.

**Computer For Seniors: Reviews and Buying Guide**

Why buy computers for seniors. As we age, our life undergoes monumental changes. Not only do our bodies grow physically weak (because of the natural wear and tear) but our memory also worsens among other sad happenings. As a result, it's practically nearly impossible to learn and keep up with newer technology even if you're computer literate.

You can make a standard personal computer much easier for seniors to use by downloading the free Eldy software. It works on older computers running Windows 7 as well as some Android tablets. Eldy transforms the screen into a simplified menu of six large buttons for accessing the Internet, email, video calls, and more.

**Tablets and Computers for Seniors: The Only Guide You Need**

It's a good idea to buy your computer with enough RAM and storage space to last you for at least five years. Bear in mind that operating system updates can take up a lot of room, as do photos and videos. How much you need depends how you use your computer - use our tables below to work out what would suit your needs.

**Choosing the right computer**

Senior citizens who want to keep up and be engaged in the multiple benefits of technology can find free or low-cost computers if they can't afford the usual retail prices. Look for access to free computers for seniors from local and national corporate-sponsored programs, the government, nonprofit organizations that help the elderly, or computer recycling enterprises.

**Where to Find Free Computers for Seniors | LoveToKnow**

Before you buy a new desktop computer, it's important to understand how factors such as the CPU and RAM affect system performance. You must also take into account any peripherals you'll need, such as connector ports and optical drives. Here's an overview of factors to consider before you shop for a desktop computer.

**Buying the Right Desktop PC for Your Needs**

Buying the newest model means paying the highest price- older versions of a great computer will be less expensive and still a great solution to your laptop needs. Also, some models are available with less storage, which might work great for you and save you some extra money.
