Take Hardinger for both Chem 14C&D. Hardinger has been my favorite professor thus far. His jokes in lecture are hilarious! Love his sense of humor. He is the most organized professor I've had. Everything you need to know is in the lecture supplement; no catches. He never throws any curve balls on his exams; they are very straight forward.

14C Lecture Supplement is just the PowerPoint slides. Thinkbook chapters are located under the section "CFQ/PP" Caution: Hardinger has stated that the Thinkbook on the website is not the most recent one, and so it may have a few errors here and there. Those errors are listed on his webpage, in one of the sections (known errors?)
