Neck pain—NHS

Last update - 23rd Aug 2020. Migraine and tension-type headaches are frequently accompanied by neck and muscular pain. This suggests that there is a functional connection between the trigeminal nerve afferents and the cervical nerve root afferents via the trigeminocervical nucleus. Some suggest that neck pain is a consequence of migraine, while others believe that neck pain is either a trigger of, or at least a contributor to, migraine.

Neck Pain And Pillows - What Is The Connection? If waking up during the night or in the morning with a stiff neck, neck pain or a headache sounds familiar to you, then you might find this article helpful. You might have wondered at the headline (or not), what do pillows have to do with neck pain? Quite a lot.

~~Sweetnight | Neck Pain And Pillows—What Is The Connection?~~

To properly understand the direct relationship between the two body parts, let 's first look at how the neck and shoulders work. Neck: The neck signals the nerves that relay to the head, shoulders, and arms. There are eight sets of nerves in the neck, 12 sets in the thoracic, which is the middle-back region, and five sets in the sacrum. All of these nerves allow us to move our muscles in any direction, as well as give us the
