Ethiopia, the source of 80 percent of the Nile water reaching Egypt, was already bound by an earlier treaty imposed by Britain on Emperor Menelik forbidding him to build dams on the Nile.

Egypt and Ethiopia: The Curse of the Nile | Wilson Center

The interesting point here is that it is the amalgamations of all the sixteen rivers that form the proper Blue Nile that contribute 52% of the Nile. Also, it is with the addition of the Black Nile (Barya or Baro River) that Ethiopian rivers ' share of the Nile becomes 86%. This means that, despite the little and yet disguised acknowledgment given to Ethiopian rivers by the national authorities, the facts on the ground confirm that Oromian rivers alone contribute about 80% of the Black Nile ...
