## *Governing the climate change regime*

By Julia Kreienkamp, UCL Global Governance Institute. The adoption of the 2015 Paris Agreement has been widely celebrated as a historic achievement. It enshrines a new logic of global cooperation, representing a decisive shift away from the top-down regulatory approach that had previously underpinned the international climate change regime. This shift can best be understood in light of the historical evolution of the legal and institutional framework for global collaborative climate action.
