The Value of Effective Budget Planning to Financial Control. If you wish to obtain financial control on the financial resources available to your business, budget planning is the most practical way to do it. Budgeting is the main tool in budget planning that supports a business to decide how to distribute each projected revenue. The budget planning process is essential to the continuing success of a business that endeavors to compete with companies that have larger resources.

Budget as a Means of Planning, Control and Coordination 8. Operation (Working) of Budgetary Control. Definition and Concept of Budget: A budget is an instrument of management used as an aid in the planning, programming and control of business activity. A budget may be defined as a financial and/or quantitative statement, prepared and approved prior to a defined period of time, of the policy to be pursued during that period for the purpose of attaining a given objective.

Budgeting lies at the foundation of every financial plan. It doesn't matter if you're living paycheck to paycheck or earning six-figures a year, you need to know where your money is going if you want to have a handle on your finances. Unlike what you might believe, budgeting isn't all about restricting what you spend money on and cutting out all the fun in your life.

[Basic Budgeting Tips Everyone Should Know](#)

The first step in financial control is to set up the standard for every financial transaction of the concern. Standards should be set in respect of cost, revenue, and capital. Standard costs should determine in respect of goods and services produced by the concern taking into account every aspect of costs.

[Financial Control: Meaning, Definition, Objectives ---](#)

Budgetary control is financial jargon for managing income and expenditure. In practice it means regularly comparing actual income or expenditure to planned income or expenditure to identify whether or not corrective action is required. For example most University departments are given annual chest budgets for general equipment.

[What do we mean by budgetary control? | Finance Division](#)

Budgetary control helps in coordinating the economic trends, financial position, policies, plans, and actions of an organization. Budgetary control also helps the management to ensure and control the plan and activities of the organization. Budgetary control makes it possible by continuous comparison of actual performance with that of the budgets.

Simple financial control strategies Rule 1: Budgeting Processes. Engage in proper budgeting processes every year: Collect and store data that can be used to predict next years income and expenditure; Consult widely within organisation and obtain views from organisation personnel as to probable changes in programs in next financial year

[Simple financial control strategies: Budgeting and ---](#)

The accounting system and the budget are closely related. The details of the budget must agree with the company's ledger accounts. In turn, the accounts must be designed to provide the appropriate information for preparing the budget, financial statements, and interim financial reports to facilitate operational control.
