and service in cars spanning six consecutive decades. All of the 4.2-litre XK engines used the straight port head.

~~Jaguar XK engine — Wikipedia~~

At best the 4.2 litre Jaguar/Daimler engine block could be described as suspect and its quality further declined throughout its production. It was designed in the early 1960s to give more torque and better low to mid range performance than the 3.8 litre engine, which it genuinely did.

The E-Type was originally available as either a Fixed Head Coupe or Roadster. In 1964 the car underwent it's first upgrade, which included the introduction of a larger 4.2 liter engine and, thankfully, a "Moss" all-synchro gearbox. In 1966 Jaguar released a 2+2 Coupe, necessarily longer, it is arguably a little less elegant than the DHC.

~~Jaguar E Type Technical Specifications~~

The original, matching-numbers 4.2-liter engine (number 7E6555-9, mated to gearbox number EJ5705) was rebuilt to factory specifications by being
