Medieval Political Philosophy: A Sourcebook, edited by Ralph Lerner and Muhsin Mahdi, has been a classroom favorite since its publication in 1963. When it first appeared, it was the only anthology of medieval political philosophy to contain major texts from all three Western monotheistic traditions--Christianity, Judaism, and Islam--and that claim remains true today.

Aside from its genuine value as a university text, Medieval Political Philosophy: A Sourcebook provides a thoughtful consideration of a number of themes, including the relation between religion and politics. As the editors point out, recent events have served as a reminder that the salience of religion and politics as an issue has not been confined to the medieval period.
