Assignment Problems: SOLUTION OF AN ASSIGNMENT PROBLEM ...

In operations research, a team of experts from the different fields first define the problem then represent that problem in the form of a set of mathematical equations. After that, the

computer analysis of these mathematical equations is done to find a solution for the problems, and then these solutions are applied to solve managerial and administrative problems.

Access PDF Operations Research Problems And Operations Research - Types, Advantages, Disadvantages

The British/Europeans refer to "operational research", the Americans to "operations research" - but both are often shortened to just "OR" (which is the term we will use). Another

term which is used for this field is
"management science" ("MS").

The Americans sometimes
combine the terms OR and MS
together and say "OR/MS" or
"ORMS".

OPERATIONS RESEARCH LECTURE

Access PDF Operations Research Problems And NOTES Solutions By Jk Sharma

The transportation problem in operational research is concerned with finding the minimum cost of transporting a single commodity from a given number of sources (e.g. factories) to a given number of destinations (e.g. warehouses).

These types of problems can be solved by general network methods, but here we use a specific transportation algorithm. The data of the model include.

From this table, the improved basic feasible solution is read as:
 $x_1 = 2, x_2 = 0, s_1 = 2, s_2 = 0$
. The improved value of $Z = 6$.
Thus the optimal solution is
obtained as $x_1 = 3, x_2 = 1,$
 $\max z = 11$. Step 6: Now repeat
step 3 through 5 as and when
