Perspectives on International Relations: Power, Institutions, and Ideas shows students new to the field how theories (perspectives) of international affairs—realism, liberalism, constructivism (identity), and critical theory—play a decisive role in explaining every-day debates about world affairs. Why, for example, do politicians and political scientists disagree about the causes of the ongoing conflict in Syria, even though they all have the same facts?

The great strength of Nau's Perspectives on International Relations is the way that theoretical perspectives are illustrated through their application in historical cases and contemporary issues. Students are really able to understand how different perspectives raise unique analytical questions by seeing them applied in a variety of situations. ”
