ProtoTRAK conversational controls are easy to use and packed with the functionality machinists need for milling and turning. Designed and built in the USA, they feature the latest in toolroom and low volume production technology. ProtoTRAK CNCs do more than bridge the gap between manual machines and CNC operation. They allow users to work the way they want for improved efficiency and productivity.

I have the manual Z/ 2axis prototrak plus. after some more time I have coaxed some programs to work, but they always seem to require a little editing.. I still am quite satisfied to see both Fusion360's SWI GCD post and the fanuc (general, non incremental) post processor both were able to produce results - that with minor editing were usable with this roughly 30 year old controller. Typically ...
