Community mental health services play a crucial role in delivering mental health care for adults and older adults with severe mental health needs as close to home as possible. The NHS Long Term Plan and NHS Mental Health Implementation Plan 2019/20 – 2023/24 set out that the NHS will develop new and integrated models of primary and community mental health care.

NHS England » Community mental health services

Center for Mental Health Services, also known as community mental health teams in the United Kingdom, support or treat people with mental disorders in a domiciliary setting, instead of a psychiatric hospital. The array of community mental health services vary depending on the country in which the services are provided. It refers to a system of care in which the patient's community, not a specific facility such as a hospital, is the primary provider of care for people with a mental illness. The g

Home - Community Psychiatry

Psychiatry is a medical field concerned with the diagnosis, treatment and prevention of mental health conditions. A doctor who works in psychiatry is called a psychiatrist. Unlike other mental health professionals, such as psychologists and counsellors, psychiatrists must be medically qualified doctors who have chosen to specialise in psychiatry. This means they can prescribe medication as well as recommend other forms of treatment.
