capabilities of the Advanced Adapter Engine (AAE) as well as design and configuration tools (ES Repository and the Integration Directory) to set up integration scenarios that are based on the AAE.

Advanced Adapter Engine - SAP Help Portal

The Advanced Adapter Engine provides mapping and routing for this locally. Message Processing is only executed on the Advanced Adapter Engine from one adapter to another without the involvement of the Integration Engine. You can gain a great improvement in performance. You can implement all adapters on the Adapter Engine for a local Message Processing on the Advanced Adapter Engine, apart from the RNIF adapters and the CIDX adapters.
