Journal - MASCC

Supportive care can be administered in various ways—for example, by religious communities or caregivers as well as providers. However, healthcare providers must recognize the supportive care needs of their patients and incorporate effective resources and interventions into treatment plans.

Supportive care needs of cancer patients: A literature ...

“ Supportive care ” is the management and prevention of the adverse effects of cancer or cancer treatments. At The Christie NHS Foundation Trust we developed this into “ Enhanced Supportive Care (ESC) ” , a new initiative that promotes the earlier integration of supportive care within cancer care. There are 6 principles: Much earlier involvement of supportive care services in cancer care

NHS England » Enhanced Supportive Care makes excellent ...

Rather than waiting until patients are in crisis, Enhanced Supportive Care ensures that patients with incurable cancer have early access to specialist support where there are pain or symptom problems. This early intervention helps avoid the need for emergency admission to hospital.
