**VBA and Macros:
Microsoft Excel
2010 (MrExcel
Library ...**

Macros enable you to add functionality to forms, reports, and controls without writing code in a Visual Basic for Applications (VBA) module. Macros provide a subset of

Online Library

Vba And

the commands that are available in VBA, and most people find it easier to build a macro than to write VBA code. For example, suppose that you want to start a report directly from one of your data entry forms. You can add a button to your

Online Library

Vba And

form and then

create a macro

that opens the

report.
